## **Streets clear in city, but power outages in county**

A mix of sleet, freezing rain and rain fell overnight in the city, with minor accumulation of ice in trees, but no accumulation on streets.

Public Works crews spread salt on bridges to prevent any buildup of ice. Police reported no weather-related traffic accidents.

Danville Utilities reports more than 500 customers are without power, including 471 customers in portions of the Mount Hermon and Blairs communities who lost power at 6:07 a.m. when a feeder circuit went offline.

The remaining outages are scattered in Pittsylvania and Halifax counties.

Utility crews have been dispatched for these outages.
